

NGUYEN PHAN HOANG PHUC

BI Intern

Thu Duc, HCMC | (84) 854 519 237 | phuchoang0308@gmail.com
github.com/hoangf384 | in/hoangf384

SUMMARY

Detail-oriented and proactive MIS graduate with a strong foundation in **Business Data Science**. Eager to apply SQL query optimization, ETL processes, and dashboard development skills (Power BI, Excel) to support data collection and automate reporting workflows at iBasic. Fast learner, motivated to gain experience in retail and e-commerce models.

WORK EXPERIENCE

Data Analyst | Newgen Invest 03/2026 – Present

- Designed and standardized a lead management system (Mini CRM) on Google Sheets to consolidate customer data and optimize lead distribution workflows.
- Built and automated daily and weekly sales reporting pipelines using advanced formulas (IMPORTRANGE, QUERY, FILTER), delivering real-time dashboards to management.

Data Operation Intern | ATG 10/2025 – 12/2025

- Audited and cross-checked 1,000+ daily operational records against legal documents to ensure accuracy and compliance, maintaining a 99% data integrity rate.
- Moderated, verified, and standardized metadata for over 1,500 job postings on boss.vn, resolving inconsistencies and cleansing database entries.

PROJECTS

MoMo Top Up 04/2026 – 05/2026

github.com/hoangf384/MoMo-Top-Up

- Analyzed over **13.4K+ transactions (694.6M GMV)** to evaluate platform performance, identifying a **stable 51K VND AOV** and discovering strong Q3-Q4 seasonal growth drivers.
- Applied the **Pareto (80/20) principle** to segment user behavior, uncovering that the **top 20% of active users contribute 65% of total revenue**, and proposed a targeted VIP Loyalty program to mitigate churn.
- Conducted **cohort and demographic analysis** to optimize marketing ROI, identifying **users aged 23–32 in major cities** as the **highest-converting segment to refine user acquisition strategies**.
- Evaluated partner performance across 5 active telcos to address concentration risks, formulating **cross-selling promotions** to stimulate mid-tier merchants (Vinaphone, Mobifone) and reduce heavy reliance on Viettel.

Personal Finance Behavioral Analytics | Group Project 05/2025 – 07/2025

github.com/hoangf384/pf-visualization

- Simulated a highly realistic financial dataset of 20,000 users using **Python (SciPy, NumPy)**, applying **multivariate normal distributions** and correlation matrices based on U.S. BLS data to overcome survey limitations.
- Designed an interactive **Tableau dashboard** tailored for Product and Growth teams, enabling robust demographic segmentation to uncover hidden financial behaviors and user pain points.
- Extracted a crucial product insight: the 18–25 age cohort suffers a **–26.9% savings rate** driven primarily by early-month fixed costs, invalidating the assumption of high discretionary spending (~8%).
- Formulated an actionable **A/B testing strategy** proposing “Proactive Pacing Alerts” to replace traditional reactive reporting, aiming to intervene in real-time and improve user savings rates.

TECHNICAL SKILLS

BI & ETL Skills : SQL Query Optimization, ETL Processes (Extract, Transform, Load), Automated Reporting
Databases & Tools : MySQL, BigQuery, SQL Server, Excel (Pivot Tables, Advanced Formulas, VLOOKUP)
Programming : Python (Pandas, Polars, PySpark), R, Google Apps Script
Visualization : Power BI, Looker Studio, Tableau
Other Tools : Git, Docker, English (Basic Communication & Reading comprehension - B2 CEFR)

EDUCATION & QUALIFICATIONS

Management Information Systems | HUB 10/2022 – 03/2026

- Specialization: Business Data Science GPA: 3.2/4.0
- Semi-finalist - Data Analytics Competition 2024 (Organized by HUB University).

Google Data Analytics Professional Certificate

VSTEP – Level 4 (B2 CEFR)

Harness Engineering for AI Agents (WalkingLabs)
